

AMANDEEP AWASTHI

Frontend Developer

aman01awasthi@gmail.com | +91-9625523332 | Mohali, India | LinkedIn: linkedin.com/in/amandeep-awasthi/

PROFESSIONAL SUMMARY

Frontend Developer with 2.5+ years of hands-on experience building and shipping production-grade web applications in the Fintech and Edtech domains. Proficient in React.js, JavaScript (ES6+), HTML5, CSS3, and Bootstrap. Served as the sole frontend developer on VyazPay (a personal loan platform) and as Frontend Lead on CampusDunia — a platform serving 600,000+ registered users — where full ownership of four dashboard layers was maintained. Passionate about writing clean, scalable code and delivering user-centric products.

KEY SKILLS

Frontend:	React.js, JavaScript (ES6+), HTML5, CSS3, Bootstrap, jQuery, React Material UI
Backend/API:	REST API Integration, PHP (basic)
Tools:	Git, GitHub, VS Code, Chrome DevTools
Domains:	Fintech, Edtech, LOS (Loan Origination Systems), LMS (Lead/Loan Management Systems)
Soft Skills:	Ownership mindset, Cross-functional collaboration, Deadline-driven, Quick learner

WORK EXPERIENCE

Frontend Developer | Entritt Solutions Private Limited

Oct 2023 – Present

Mohali, India

- Sole frontend developer on VyazPay (vyazpay.com) — architected and built the complete React.js application from scratch, including the public-facing site and admin dashboard for a personal loan and salary advance platform.
- Frontend lead on CampusDunia (test.cerebroxtek.com) — designed and delivered all four dashboard layers (Admin, Employee, Student/Parent, SuperAdmin) and the complete public website for a platform with 600,000+ registered users.
- Built the investor dashboard and a real-time investment calculator on InvestXTimes (investxtimes.com), enabling users to select investment plans and instantly view live return projections.
- Collaborated directly with product managers and backend developers to translate wireframes and business requirements into pixel-perfect, responsive UIs.
- Ensured cross-browser compatibility and mobile responsiveness across all delivered applications.
- Tech Stack: React.js, JavaScript (ES6+), HTML5, CSS3, Bootstrap, jQuery, React Material UI.

Frontend Developer | Solitaire Infosys (Internship)

Jun 2023 – Sep 2023

India | 4 Months

- Developed frontend UI components using HTML5, CSS3, JavaScript, and jQuery under senior developer guidance.
- Assisted in building internal tools and UI modules, gaining exposure to real-world development workflows and version control practices.

KEY PROJECTS

VyazPay — Personal Loan & Salary Advance Platform — vyazpay.com

- Built the entire frontend single-handedly — public site and admin dashboard for a live fintech platform.
- Implemented loan application flow, repayment dashboards, and admin controls using React.js and Bootstrap.
- Tech Stack: React.js, Bootstrap, React Material UI, CSS3.

CampusDunia — Fee Collection & Credit Platform — campusdunia.co.in

- Served as frontend lead for a platform with 600,000+ registered users across educational institutions.
- Independently owned and delivered four distinct dashboards: Admin, Employee, Student/Parent, SuperAdmin, plus the full public website.
- Optimised component architecture for reusability and maintainability across all user roles.

- Developed the investor dashboard and a real-time investment calculator using vanilla JavaScript.
- Live return projections update instantly as users select plans and investment amounts, improving user engagement.
